REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The O'Neal (571) reference does not teach a trailer lock including a connector mounting segment or a lock mounting segment connected to the mounting hole of the second mounting part. McDaid does not teach a trailer lock including a connector mounting segment between the main body and the fixed end for connection to the first mounting part. Jeffers does not teach blocks at the ends of a connector main body, or a lock mounting segment connected to the mounting hole of the second mounting part. There is no suggestion in the prior art for combining the references to arrive at the claimed subject matter.
